Popular Box

Opens on the top or bottom.
Use adhesive tape to close.

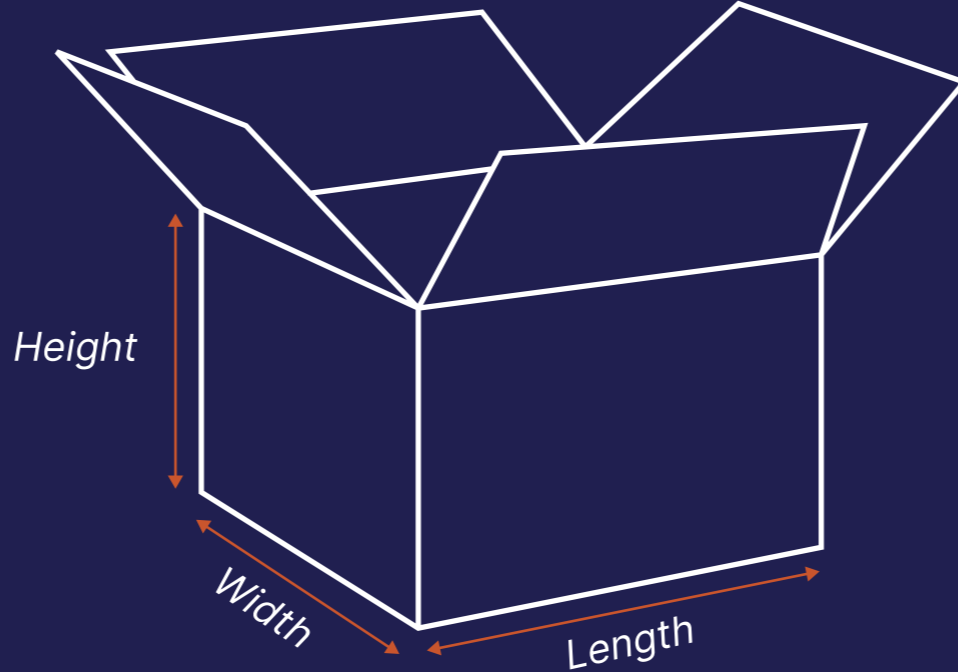

Closed

Opened

RSC (Regular Slotted Container)

The most common box style. Highly efficient design for many applications. All flaps are the same length, and the two outer flaps (normally the lengthwise flaps) are one-half the container's width, so that they meet at the center of the box when closed.

Die Cut Box

DIE-CUT BOX

(Custom Die-cut cardboard)

Die cut boxes get their name from a machine known as a die cutter or die press.

This machine cuts corrugated cardboard into boxes. As a result of the die press, die cut boxes can be cut into a wider array of shapes and styles than RSC boxes.

A specially designed box created with a die cut press or machine.
